

We enthusiastically invite you to exhibit your education products at the 3rd Annual MENA Common Core Conference. This conference will provide professional development to American curriculum schools in the MENA region on effectively employing and assessing Common Core State Standards (CCSS) in the classroom and in schools. Our mission is to unite for one common goal: To be the most successful schools and teachers for our students while implementing CCSS.

Hundreds of schools, leadership teams, and teachers from across the region will gather in Dubai, United Arab Emirates to learn about the Common Core State Standards, share curricula and best practices, and network with each other. The event will unite administrators, teachers, and schools around improving teaching and learning for all of our students.

We invite you to submit your form. More information is on the next page below.

IMPORTANT DATES

- 24 September 2015 is the deadline to register as an exhibitor.
